

Theia Launches Ultra Wide Varifocal Lens with Linear Optical Technology®

Theia Technologies has announced the expansion of its line of ultra wide angle, no distortion, megapixel lenses with its new varifocal model.

The new SL183 offers:

- No barrel distortion with Theia's Patented Linear Optical Technology®
- Ultra wide 115° to 77° HFOV with its 1.8 - 3mm varifocal range
- TrueZoom™ - focus once, and there's no need to refocus after zooming
- Up to 5 megapixel resolution for a crisp image
- IR corrected for use with Day/Night cameras
- Compact - at 49.5mm fits in most mini-domes
- CS-mount for 1/3", 1/2.7" HD, 1/2.5", and 1/2" imagers
- Available in manual and DC autoiris version

To learn more, download the [specification](#) here. The lens will be available for shipment the second week of October, 2010. If you are planning to attend the Essen Security 2010 show October 5th - 8th, please contact us to find out where you can see a demonstration of our lens technology. Theia will also exhibit at the ASIS show in Dallas, Texas October 12th - 15th and will demonstrate the new lens at booth 1046.

For pricing, to order, or to make an appointment to meet with us at Essen or ASIS, phone us at 1+(503) 570-3296, or email us at info@theiatech.com.
