

## Theia Technologies Receives ISO 9001:2008 Certification

Wilsonville, OR – February 3, 2014

Theia Technologies today announced that their quality management system has been certified to ISO 9001:2008 standards by UL DQS Inc. The registration was effective January 23, 2014 and is valid through January 22, 2017. The registration scope includes the design, manufacture and sales of optical lenses. According to UL DQS Inc., through an audit, and documented in a report, it was verified that Theia's management system fulfills the requirements of the ISO 9001:2008 standard.

According to Jeff Gohman, President of Theia Technologies, "Our successful registration represents the culmination of months of effort and investment to bring our quality management system to the world class standards our customers have come to expect from us and our products."

### **About Theia**

*Theia Technologies provides high quality megapixel lenses for security and machine vision applications. Their patented, award winning Linear Optical Technology® corrects barrel distortion and improves image resolution over typical lenses. Theia lenses are designed and marketed from the US, and manufactured to ISO 9001 standards. Theia also provides optical engineering and custom design services. Theia has several issued and pending US and foreign patents for lens technologies.
